SUMMARY

Master's student in **Data Science at the University of Adelaide (2025–2027)** with hands-on experience in analytics, visualization, and machine learning. Passionate about building production-style data systems and interactive dashboards that drive business decisions. Skilled in Python, SQL, Tableau, and AWS.

WORK EXPERIENCE

Backend Developer Intern – Safertek, Hitex City, Hyderabad *Sep 2024 – Jun 2025*

- Enhanced data retrieval efficiency by 15% through optimized database procedures.
- Boosted operational workflows by 20% using multi-action interfaces and shell scripting.
- Streamlined reporting processes with **Bold Reports**, improving data visualization and accessibility.
- Wrote queries to migrate from SQL to MariaDB.
- Verified the System metrics using grafana dashboards and prometheus metrics.

PROJECTS

LLM Based Market News Analyzer *Dec 2024 – May 2025* [IEEE paper](#)

- Developed a web-based application to analyze financial news and stock trends using NLP and real-time market data.
- Integrated sentiment analysis and finance APIs to provide actionable insights for investors.
- Implemented a personalized watchlist, stock price alerts, and AI-powered news summarization.
- Goal: Empower users with simplified and timely financial intelligence for decision-making.

Retail Analytics Platform *Oct 2025 – Present* [GitHub Repo](#)

- Engineered a data pipeline simulating Coles supermarket operations, integrating sales, customer, and inventory datasets.
- Built an SQL data warehouse and automated ETL workflows with Python and AWS Lambda, reducing data refresh latency by 30%.
- Developed ML-based sales forecasting models (ARIMA, Prophet) for weekly revenue predictions at store and category levels.
- Goal: Enable enterprise-level insights for retail performance and decision-making.

EDUCATION

2025 - present	Masters (Data Science) at University of Adelaide	(GPA: -/4.0)
2021 - 2025	Bachelors (Data Science) at VNR VJIET	(GPA: 3.52/4.0)

PUBLICATIONS

- Vishwanatham Manvith; Mahesh; Saketh; Chaitanya. **LLM Based Market News Analyzer**, 2025 IEEE International Conference on Computing and Communication Technologies (IC3T), [IEEE Link](#)

TECHNICAL SKILLS

Languages	Python, R, SQL, Java, JavaScript
Data Engineering & Databases	MySQL, PostgreSQL, MariaDB, ETL, Data Warehousing
Machine Learning & AI	Deep Learning, NLP, Computer Vision, Model Deployment, RAG
Visualization & BI	Tableau, Power BI, Matplotlib, Seaborn, Plotly
Cloud & DevOps	AWS, Docker, Kubernetes, Git/GitHub
Tools / Other	MLflow, Weights & Biases, Airflow, Prefect, REST APIs

CERTIFICATIONS

- NPTEL Certification in Cloud Computing (2024) [\[View PDF\]](#)
- IEEE Paper: LLM Based Market News Analyzer (2025) [\[View PDF\]](#)

EXTRA-CURRICULAR ACTIVITIES

- Appointed as **People’s Leader (2018–2019)** and increased student participation in sports by 20%.
- Led a team during **Smart India Hackathon (SIH)**, resulting in a 25% boost in project delivery success.
